Elective Intensives

The La Vida High School Program is changing this year. This is after three years of discussion, we are experimenting with providing electives in a compressed format, two days at a time. The Idea is to build community, provide enriched learning experiences, provide a fun way to fulfill the state expectations for synchronous classes for Independent Study students, while at the same time being conscious of the high price of gas.

All La Vida High School Students are required to sign up for at least two intensives per trimester. More are welcomed. Community Thursdays are included. See the fall list of Specialty or Elective Intensives below. Elective Credit will be Earned .33 credits per full day and .25 credit for half day
